During our 20th Anniversary year, we are truly celebrating our connection with referents, trainees, and clients around the world. Without you, the work we do would not be possible. Thank you for your dedication to providing comprehensive, multidisciplinary services to children and families during investigations of allegations of abuse!

CornerHouse Ambassador Program Launched during Child Abuse Awareness Month

April was Child Abuse Awareness Month, and CornerHouse launched its new Ambassador Program by inviting various partners, including child abuse investigators, volunteers, past employees, and other professionals in the field, to become CornerHouse Ambassadors for 2009. This staff initiative is one of many ways CornerHouse is celebrating its 20th year of serving children in Hennepin County.

Duties of the CornerHouse Ambassadors include: speaking in public settings, handing out informational literature and distributing other CornerHouse materials to promote awareness of child abuse. "We developed the Ambassador Program to initiate conversations about CornerHouse, but more importantly, about child abuse and the long-lasting effects it has on our children and our community," states co-founder of the program and CornerHouse staff member, Krista Kemp. "It's an important, prevalent issue that doesn't get enough attention. Our hope for this program is that it will get people talking; simple as that."

According to Prevent Child Abuse America, by age 18 one in four girls and one in six boys will experience sexual abuse contact. CornerHouse's doors officially opened on June 12, 1989. Since then CornerHouse staff members have interviewed nearly 9,000 children, conducted over 1,600 medical exams, and trained over 20,000 professionals.

"For twenty years CornerHouse has been a safe place for children to come and begin the process of healing," said Tom Frost, CornerHouse Executive Director. "Our Ambassador Program enables us to reach out through our partners to bring our message of hope, starting during the Child Abuse Awareness month of our 20th anniversary year."

If you are interested in distributing free CornerHouse safety information cards, including information about how individuals can break the cycle of abuse and what to say to an abuse victim who has disclosed to you, please contact CornerHouse at 612-813-8300.

Strategic Planning

Members of the CornerHouse Board of Directors and senior staff members met on April 10, 2009, for a Strategic Planning Retreat. The retreat was facilitated by consultant Carol Berde and culminated several months of fact gathering from staff and board members, law enforcement and legal partners, leaders of related and similar businesses and training clients.

Funding for this project came from the Pohlad Family Foundation, which provided a grant to CornerHouse in late 2008 to undertake a strategic planning project. CornerHouse completed its last strategic plan in 2002.

The retreat, held at the Dorsey & Whitney law firm's Minneapolis offices, focused on strategies to build on CornerHouse's distinctive assets to provide the best services to customers. Recognizing the same economic challenges other non-profits currently face, the board also discussed maximizing the value of the CornerHouse training program and what business model would best position CornerHouse for a strong future.

The Strategic Planning Committee of the Board of Directors will meet in April and May to finalize the plan for the next three to five years. The final version will be presented to the full Board and all staff members at the June 12 Annual Meeting.
