Advanced Forensic Interview Training

"I highly recommend this training to others. It is well worth the time and money. All staff members were great and explained everything very well."

- Advanced Forensic Interview
Training Participant

Why should you attend?

Check out the article in the July
Training Corner newsletter:

*Becoming a Forensic Interviewer:
Exploding the Myth of "One and
Done"*

by Mary Anne Saurino, MA, EdS

[Read it!](#)

Practice and improve your forensic interviewing skills, while connecting with others in your field. There are still a few seats available in our Sept. 27-29 session at CornerHouse in Minneapolis, MN.

Visit cornerhousemn.org/advancedinterview.html to learn more and register.

What will you learn?

- Best practices in forensic interviewing
- Delivery of effective court testimony
- How to identify and manage bias
- Strategies for working with diversity and special circumstances
- How to manage secondary and vicarious

trauma

How is the training organized?

- Online learning modules available through a secure portal starting four weeks before the in-person training

Online learning is moderated, interactive, and prepares participants to practice advanced techniques in person

- Face-to-face learning takes place over three days at CornerHouse in Minneapolis
- Class size limited to 18 participants, assuring a small, personal learning environment
- Active and experiential in-person training utilizes lecture, discussion, demonstration videos, roll-playing, and guided reflection

CornerHouse | 2502 10th Avenue South | Minneapolis, MN 55404
